

**Product Description:**

IB PVC Clad Metal is made from 24 gauge, ASTM A653-09, CS Type B, G90 galvanized sheet metal with a durable 45-mil non-reinforced IB PVC film with acrylic finish, laminated to the top surface. IB PVC Clad Metal can be used for the fabrication of a variety of sheet metal flashing details requiring a PVC hot air weldable surface for the attachment of IB PVC and IB DeckShield products. The laminated PVC film allows flashing membranes to be hot air welded to the PVC side making installation easy and the finished detail visually appealing.

**Sizes:**

4' x 10' sheets

**Packaging:**

Sold in individual sheets  
50 sheets max per pallet  
48 lbs. per sheet

**Features:**

- Durable 45-mil IB PVC non-reinforced film laminated to corrosion resistant 24-gauge, G90 galvanized metal
- Acrylic finish top surface
- Easily fabricated into various profiles and flashings

**Available Colors:**

Standard Clad Finish in White, Bronze, Tan, and Gray
