

IB isoweld[®] Plate

Product Description:

The IB isoweld[®] PVC Plate is made of G90 Steel with proprietary PVC adhesive coating. Utilizing innovative induction welding technology, the isoweld[®] 3000 simultaneously welds the adhesive coated plates to single-ply pvc membranes.

Packaging:

The plates are pre-packaged in a plastic bucket. See table for quantity and weights.

Features:

- G90 Steel with proprietary PVC adhesive coating
- Color: Purple tinted
- Coating back of plate: polyester gray

Description	Diameter	Packaging	Weight
Isoweld [®] Plate	3"	500	34 lbs

Application:

Refer to IB Specifications and Construction Details for installation instructions and fastening patterns. Induction weld assemblies directly over EPS / XPS insulation board requires use of additional isoweld pads for EPS / XPS application. Contact IB Technical Services for additional information.

Plate Properties:

OD: 3.12" Round
 ID: .260"
 Color: Purple tinted
