

# ZAC Anchor

**Product Description:**

The ZAC Anchor Fastener is designed to secure termination bar, counterflashing and various metal flashings to wood, masonry / concrete and steel.

**Packaging:**

The fasteners are pre-packaged in a plastic bucket. See graph for quantity and weights.

**Features:**

- Threads into wood, masonry, concrete and metal
- ZAC cap is zinc aluminum composition and will never red rust
- Can be removed and re-engaged for roof repairs without damage to the roof system
- E-coat coating on thread
- Grommeted EPDM washer

**Application:**

The ZAC Anchor Fastener secures metal flashings to approved substrates per IB specifications and individual project requirements. Concrete / masonry must be pre-drilled with a 7/32" carbide tipped masonry drill-bit.

Length	Thread Length	Packaging	Weight
1-3/8"	Full	1000	25 lbs.

Performance Load Capacities (2000 psi concrete)			
Pre-Drill	7/32"	7/32"	7/32"
Embed. Depth	1"	1.25"	1.375"
Tension Load (lbs)	620	810	905
Shear Load (lbs)	830	1130	1280

**Fastener Properties:**

Head: 3/8" AF ZAC HWH Long Life  
 Head Diameter: #14 .248"
