

IB Clad Termination Bar

Product Description:

IB Clad Termination Bar is fabricated from 24 gauge, ASTM A653-09, CS Type B, G90 galvanized sheet metal with a durable 45 mil non-reinforced IB PVC film with acrylic finish laminated to the top surface. Bars are 2" wide with a hemmed caulk lip on the top and a hemmed bottom edge and can be installed over membrane flashings at vertical surfaces (like a traditional termination bar), or installed first to allow for the membrane to be welded directly to the IB Clad Termination Bar for a cleaner application.

Sizes:

2" x 10' sections

Packaging:

Sold as individual sections
50 pieces per box
4 lbs. per piece

Features:

- Durable 45 mil IB PVC non-reinforced film laminated to corrosion resistant 24 gauge, G90 galvanized metal
- Acrylic finish top surface
- Installed either on top or underneath the roofing membrane

Installation:

Secure termination bar to the wall with approved IB fasteners suitable for the substrate spaced no more than 6" o.c. for most applications. Refer to IB Specifications and Construction Details for additional installation requirements.

Available Colors:

White, Bronze, Tan and Gray
